Description

4x concentrated sample preparation for SDS-PAGE.

Use this product after adding 1/4 volume of this product to the sample.

Use when the sample concentration is low. This product contains the reducing agent 3-mercapto-1,2-propanediol, which is not a poisonous deleterious substance instead of 2-mercaptoethanol.

For protein electrophoresis! Sample Buffer Solution This product is used by mixing with protein solution during SDS-PAGE electrophoresis.

As the reducing agent, 3-mercapto-1,2-propanediol is used instead of 2-mercaptoethanol (2-ME), which is designated as a poisonous and deleterious substance. Therefore, management of poisonous and deleterious substances becomes unnecessary.

Use Sample Buffer Solution (x 4) when you want to test a large amount of sample.

[Composition]

? Sample Buffer Solution with 3-mercapto-1,2-propandiol (x 4)

0.25 M Tris-HCl (pH 6.8),

8% SDS,

40% Glycerol,

0.02% Bromophenol Blue

20 (v / v)% 3-mercapto-1,2-propanediol ?#[139-16452](#)?#[131-16451](#)?
